

Relax Energy - Technological Breakthrough!

Let us restore radiant health in your life today!

Experience the benefits of Relax Energy's pure far infrared light for healing. At 95% pure far infrared light, the Relax Energy's Far Infrared generators deliver the highest level of far infrared light for purifying the body and cleansing the mind. If you research other infrared light emitters, you will find they are not as effective, only generating between 36-62% far infrared light.

Relax Energy is more "natural" than other infrared: Emitting the right frequencies that resonate with the cells of your body, increasing core temperature, creating more Free Oxygen, mobilizing the lymph, and thus detoxifying cells and increasing assimilation of nutrients.

The superior design of The Relax Energy technology starts with its precisely designed Semi-Conductor Chip. This design has won international awards for its innovation and ability (bypassing Planck's radiation law) to produce over 95% pure far infrared light, thus, generating therapeutic chi energy, (which is thought to be impossible.)

semi-conductor chip

There is something very different and more uplifting about the Relax Energy than any other Infrared emitters.

Relax Far Infrared Radiators

Professional model
(800 watts)

Registered with the FDA as a medical device

510(K): K053376

Portable model
Table Lamp

Table Lamp

(200 watts)

The Relax Company: Look at our other Relax Products: The Relax Far-Infrared Home Sweaters !

At the last 4 Best Answer for Cancer Conferences, we have sold about 100 Relax Far Infrared Home-Sweaters. There are many medical practitioners now promoting and selling them to their patients. Please view our 500 Video Testimonies on youtube, attesting to the incredible benefits that have been received - from "feeling better" to "dissipating health conditions"- some of which have been chronic.

Far-Infrared Technology has been researched in Japan's medical hospitals for over 40 years, and found to alleviate ailments such as Radiation Sickness, Rheumatoid Arthritis, Fibromyalgia, Crohn's Disease, Lyme Disease, Duodenal Ulcers, High Blood Pressure, Pain, Swelling, and Sleep Disorders.
