## BAJA MEDGATE Cancer Clinics Use & Recommend the Relax Sauna

Dr. Jennifer Miele is the co-founder and clinical director of the BAJA MEDGATE clinic in San Diego, and in Tijuana, Mexico. Jennifer focuses on medical research and development of new protocols based on an integrative approach involving a focus of PDT/Photodynamic Therapy in oncology, immunotherapy, regenerative medicine, endocrinology, infectious diseases, autoimmune diseases, and nutrition. They have experienced the effectiveness of the Relax Sauna in their clinics and recommend them to their patients.

Jennifer recently enthusiastically confided to us, *“I Love the Relax Sauna, and frankly, the wood infrared saunas just do not penetrate as much as the Relax Sauna.”*

## Washington Cancer Clinic Augments IV Therapy by using the Relax Sauna

A Washington cancer clinic has informed us that they have been able to increase the effectiveness of their IV Therapy by putting their patients in the Relax Sauna while performing IV (with patients arm extended out the armhole). They usually increase core temperature 4.2° in 1 hour, and are excited with their results.

## Relax Sauna Radiators Emit 1400 Watt Pure Far Infrared Light

The Relax Sauna company in Taiwan has been in business for 40 years.

It took their researchers 10 years to develop a semi-conductor that filtered out near & mid infrared wavelengths while emitting more than 95% FIR energy with wavelengths between 4-14 microns.

8-10 micron FIR Energy Has Been Shown to be Biologically Effective  
Relax Saunas Increase Core temperature Faster than any other Sauna

Relax Saunas are personal use, far infrared ray (FIR) emitting saunas that are portable and affordable. Patients feel warm almost instantly, and sweat profusely in 20 minutes. The patented and award winning radiators deliver pure FIR energy at stronger levels than any other sauna.

**FIR penetrates biological tissue up to 1.5 inches, delivering heat internally while exerting vibrational effects on water molecules in blood cells and tissue cells and raising the body's core temperature.**
