

# The Relax® Sauna

**OVER 95% PURE FAR INFRARED**

*Mental Clarity - Rejuvenation - Detoxification - Relaxation,  
Weight Loss - Better Sleep - Softer Skin - Circulation & more!*

***The materials in the Relax Sauna tent are 100% safe  
It is made from high quality nylon and not plastic  
It has been tested by 100's of environmental doctors & patients***

We have had much positive feedback from people who have used our saunas for detoxification, healing and other health reasons. Many people who own wooden infrared saunas are amazed how much more effective and comfortable the Relax Sauna is. This is because the Relax Sauna emits over 95-99% pure Far Infrared light.

The Relax Energy emits low EMF (about as much as a small house fan) and is 100% safe. The sauna has been tested by the Industrial Technology Research Institute (responsible for training personnel equipped with semiconductor knowledge) and its wavelength is certified to be 4-14 microns - suitably absorbed and internalized by the body. Similar products that claim a wavelength of 2-25 microns are not as effective, if not harmful. A wavelength that is too long (longer than 20 microns) is of no use to us; a wavelength that is too short (shorter than 3 microns) can burn the skin. Energy at 4-14 microns is by far the most beneficial and therapeutic for us.

## **Environmental Doctors are concerned About EMF!**

Many of these environmental doctors recommend the Relax Sauna because it is very effective, and they have NOT noticed any drawbacks from the slight amount of EMF emitted by the Relax Sauna radiators by the feet – about ¼ the EMF of a Vita-Mix Juicer or a Green Power Juicer. They actually encourage their patients to get a RELAX SAUNA for their home !

### **Here are 4 reasons why !**

***There is NO EMF emitted anywhere in the Relax Sauna tent where your body and vital organs are!  
It has been proven in Japan that Far Infrared Energy ACTUALLY Antidotes previous EMF Exposure.  
Since the Relax Sauna generates about 4-7 times the FIR of any other Sauna, it is more effective than any other Sauna in detoxifying the ill effects of previous EMF exposure , & IT ALSO acts as an EMF protector!***

## **Dr. Billica is an advocate for the effectiveness of the Relax Sauna**

Dr. Roger Billica, who was the director of the medical center at NASA for 10 years, has a clinic in Colorado that is committed to dealing with environmental toxins. Dr. Billica purchased a Relax Sauna from us at the Best Answer for Cancer Conference in Dallas 4 years ago, after doing a 25 minute sweat in his sweats the night before the conference opened. At that time, he decided to start recommending the Relax Sauna to his patients instead of another infrared sauna that he had been promoting.

Dr. Billica has been promoting the benefits of Far Infrared Energy for many years, and feels that environmental toxicity is a huge issue with the health of our nation. He believes it would be good to have a far infrared sauna in every home. He tells us that the Relax Sauna is one of the best ones out there and it has become very popular in his practice and with his patients. (He uses the Relax Sauna himself.)

*Dr Billica told us in an interview (can be seen on YouTube) that when his patients who have had difficulty sweating finally start sweating with the Relax Sauna, there is a marked improvement in their healing journey.*
