This is absolutely one of the very best and favorite tools for massage therapists and lay people alike. Great on the neck, shoulders, hamstrings, quads & arms. Simply Awesome!

NOW, YOU CAN MASSAGE your muscles that are next to impossible to massage with the ACU-MASEUR. By using the red string, YOU can massage the trapezius muscles, the scapula, teres, lats & much more. A chiropractor in Florida claims she can get great results all of the time with her patients. People in pain or with sore muscles are grateful for its existence. The Acu-Masseur can be your new best friend!

Use it how you would do yoga. Get into a position with it, and then deeply breathe and/or slowly move your muscles in a stretching motion. OR slowly tweak the red balls of the acu-masseur as they hug & squeeze you. Go sideways on the traps!
